Care & Maintenance

Failure to follow correct maintenance practises may lead to permanent damage of your upholstered items.

PVC

Description

Plasticised Polyvinyl chloride (PVC) polymer, direct coated onto both sides of a polyester substrate, with a subtly textured finish. Phthalate free.

Anti-fungal / Anti-bacterial

Contains and anti-fungal additive.

Cold crack

-15 °C.

Cleaning

Wipe down the fabric with a damp cloth to remove dust and dirt. Use mild soap if needed. For tougher stains, use a mixture of water and mild detergent. Avoid harsh chemicals as they can damage the fabric.

Drying

Always air dry PVC fabric. Avoid using heat sources like dryers or direct sunlight, as excessive heat can cause the fabric to warp or crack.

Regular Inspection

Check for any signs of wear and tear regularly. Address small issues promptly to prevent them from becoming bigger problems.

Protective Measures

Use protective covers if the fabric is exposed to harsh conditions or prolonged sunlight.

IMPORTANT
Always supervise the use of this product

Safety

- Use inside, in dry environments.
- Remove all packaging and dispose of it responsibly. Plastic bags and wrapping can be hazardous to children and vulnerable people.
- Should any seams become damaged, contact Rompa® immediately to arrange a repair or replacement.
- Do not place near sources of heat or fire that may damage the surface (radiators, fires, underfloor heating, hot central heating pipes etc.)
- This product contains foam. Do not attempt to access the interior part of the products. Never allow children or vulnerable people to access the interior part of this product.
- Avoid sharp or pointed objects which could puncture the product.

Installation

1. Install indoors in dry environments only.
2. Position the product in an area where there is enough room to use it safely.
3. Choose a safe space, located away from obstacles and walkways that is flat and capable of holding the weight of the product as well as the individual(s) using it.
4. You may want to consider using floor mats around the product to keep the users safe.

IMPORTANT
Keep this equipment away from rain, moisture and liquids.
