10. Detailed Description

Reminiscence Tactile Squares have been developed for use in groups or as focal points for 1 to 1 individual sessions. All elements on the board, both visual, 3D and tactile relate to the theme. They are non-goal orientated and serve as a no-fail activity board.

11. Safety

Always supervise the use of this product

- Reminiscence Tactile Boards have been created for interactivity, to touch and explore and prompt memory and conversation. They are not designed to facilitate tugging and pulling. This type of engagement should be discouraged, as if forced items may become loose and the product may become damaged.
- This product is not a toy. Use under very careful supervision as the board comprises of movable items and some small parts. All of these items are secured carefully when leaving ROMPA®, but these need to be monitored to ensure that they do not become loose with prolonged usage.
- Remove all packaging and either store this in a safe place out of reach of clients or dispose of this responsibly. Plastic bags and wrapping can be hazardous to children and vulnerable people.
- Keep away from sources of heat and fire.
- Use indoors, in dry environments.

12. Technical Specification

Size: 29.6 x 29.6cm

Material: Base is made from wood

Tactile elements may vary according to availability but will all relate to the overall theme.

Installation

- Remove all packaging
- Decide how you wish the product to be used. They can be utilised as a tactile, no fail activity or as a focus for groups to discuss past engagement with the theme (e.g. talking about holidays, growing vegetables and flowers, being outdoors, travelling etc)
- Allow clients to touch the items on the board with their fingertips. Trace the outlines and feel the impressions and 3D objects. Some hanging items may be interactive also (e.g. measuring tape and spirit levels etc).

13. Care and Maintenance

- Store out of reach of clients – do not allow unsupervised use.
- Do not allow clients to pull and tug on the items.
- Wipe clean with a damp cloth with mild detergent. Do not try to clean the rough surfaces (such as sandpaper etc) as these may not withstand such treatment.

14. Troubleshooting

- Not applicable.
