11. Safety

Always supervise the use of this product

- Always make sure that you are connecting to the proper mains supply voltage.
- This product is intended for indoor use only. It must be connected to an earthed mains outlet.
- To prevent risk of fire or shock, do not expose fixture to rain or moisture. Keep away from flammable materials.
- The unit must be installed in a location with adequate ventilation, at least 20cm from adjacent surfaces.
- Ensure that no ventilation slots are obstructed.
- Always disconnect from your power source before servicing or replacing fuse and replace with the same fuse size and type.
- In the event of a serious operating problem, stop using the unit immediately. Never try to repair the unit by yourself.
- Repairs and servicing must be carried out by qualified service personnel only.
- Make sure that the power cord is in good condition and not damaged.
- Never disconnect the power cord by pulling or tugging on the cord.
- Avoid direct eye exposure to the light source when it is on.
