

## MATERIAL SAFETY DATA SHEET

---

Commercial Name: SCRUB BRUSH DRY

### 1. Identification of product and company

Chemical description: Sterile Scrub with or without nail cleaner

Supplier:

### 2. Composition / Component information

#### Information on components

A. POLYURETHANE FOAM FLEXIBLE

B. LPDE 780E Resin of Polyethylene

C. ABS

### 3. Hazard identification

According to the CE Directive this product is not dangerous.  
As by directive 93/42-RD 414/1996: Class I, sterile

### 4. First aid

Contact with eyes.

Wash with abundant water.  
Ophthalmological advice.

### 5. Fire fighting measures

Suitable means of extinction: Water, dry extinguishers, carbon dioxide, foam.

Personal protection: Use goggles and independent breathing apparatus.

### 6. Measures to be taken in the case of accidental spillage

Not required

Thank you  
Tania, please  
observe the  
address and  
box top right.  
Thanks  
Kate

## MATERIAL SAFETY DATA SHEET

---

### 7. Handling and storage

Fire prevention.	Handle away from naked flames.
Storage.	Keep container closed. Store in a cool place with adequate ventilation.

### 8. Exposure controls and personal protection

Not required

### 9. Physical and chemical properties

#### SPONGE

##### Appearance:

State:	Solid
Colour:	Blue
Smell:	Odorless

##### Important safety data:

Density at 20 °C	25 ± 1 Kg/cm <sup>3</sup>
Resistance to the traction	>0,8 Kg/cm <sup>2</sup>
Tensile strength at break	>0,4 Kg/cm
Elasticity (%)	> 45

Compatible with antiseptic solutions used for healthy skin disinfection.

#### SCRUB

##### Appearance:

State:	Solid
Colour:	White
Smell:	Odourless

##### Important safety data:

Density	923 Kg/cm <sup>3</sup>
Resistance to the traction	11 MPa

## MATERIAL SAFETY DATA SHEET

---

### 10. Stability and reactivity

Not required

### 11. Toxicological information

Primary irritation (eyes).                      Irritant

### 12. Ecological information

Bio-degradability.                                      The product must be prevented from uncontrolled disposal into the environment.

### 13. Disposal considerations

Provisions for disposing of waste.                                      The product must be disposed of according to local by-laws or national provisions in force concerning the disposal of industrial waste.

### 14. Information on transport

Not applicable. Not required

### 15. Regulatory information, classification and labelling

Symbol and classification.                                      None  
Risk phrases.    R36: Irritates the eyes.  
Safety phrases.    S13. Keep away from foodstuffs, beverages and animal feed.  
    S24: Avoid contact with the eyes and skin.  
    S26: In case of contact with the eyes, wash immediately with abundant water and seek medical advice.

### 16. Other information

The data contained in this safety sheet are based on bibliographical information and own experience in an attempt to reflect the current status of the technique, but in no way may they compromise our liability. their application does not exclude compliance with current legislation.
