Modern Testing Services (UK) Limited, 118 Lupton Avenue, Leeds, LS9 6ED, UK

EN 71-1:2014 Mechanical & Physical**4.1 Material cleanliness** **PASS**

The toys and their materials were visually clean and free from infestation.

4.5 Glass **PASS**

The glass in the sand timer was inaccessible.

4.7 Edges **PASS**

No accessible sharp edges or hazardous burrs were found.

4.8 Points and metallic wires **PASS**

No technically accessible wires or sharp points were found.

6 Packaging **PASS**

Packaging is defined as material accompanying a toy with no intended play function.

The packaging requirement does not apply to the box shrink-wrap as it is in the form of "shrunk-on film packaging, which is normally destroyed when the packaging is opened by the user".

The plastic packaging bag from "Square Up" had dimensions of greater than 100 mm by 100 mm, therefore the average plastic sheeting thickness must not be less than 0.038 mm, the average plastic sheeting thicknesses were 0.052 mm.

The plastic counter bag from "Name 5" had dimensions of less than 100 mm by 100 mm, therefore the plastic sheeting thicknesses were not subject to any requirements.

The remaining packaging was not in the form of plastic bags, plastic sheeting, small balls, rounded cylinders or hemispheres.

EN 71-1:2014 Mechanical & Physical**7.1 Labelling - General****PASS**

- The warning present was not misleading or incorrect in its wording.
- There was no conflict between the warning and the intended use of the toy.
- The warning was preceded by "Warning".
- The warning was visible, easily legible, understandable and accurate.
- The warning was on the packaging.
- The warning was visible at the time of purchase.

7.2 Labelling - Toys not intended for under 3 years**PASS**

- The counters in "Name 5" were small parts.
- The box bore a suitable under 3 years small parts warning that was clearly legible at the point of sale.

7.3-7.22 Labelling - Specific warnings**PASS**

- The toy was not of a type that requires a specific warning.

## EN 71-2:2011+A1:2014 Flammability

### 4.1 General requirements

PASS

No celluloid or material with the same behaviour in fire present.

No material with a pile surface present.

No flammable gases, extremely flammable liquids or prohibited highly flammable liquids, flammable liquids or flammable gels were contained by the toy.

~~~~End of page~~~~

EN 71-3:2013+A1:2014 Migration of certain elements**No analysis required****PASS**

Due to the toy being intended for older children and with no parts intended for prolonged skin contact or to be put in, or to the mouth it was considered that the toy excluded any risk due to sucking, licking, swallowing or prolonged skin contact when they toy is used in a foreseeable way, bearing in mind the behaviour of children. Therefore there were no requirements applicable to the toy.
